KELSEY NURSERY SERVICE

KELSEY NURSERY SERVICE

SPRING 1926

In the nearly half century of successful business, this Company has become an efficient clearing house as shown in the following pages, of all reliable nursery products of the country.

The rapidly growing business of the Company entirely negatives the antiquated old-fogy notion that a responsible Company with the experience and standing of this Company cannot, to the advantage of its patrons, furnish as do large department stores, from one reliable source as does this Company, the best material of production available and at satisfactory prices. Many of our patrons—large buyers—have remained among our best customers since the business was established in 1878.

We furnish complete assortments of well grown, healthy stock at very favorable prices as herein quoted; and at special prices on request in large quantities. We aim to give good service and prompt attention to all inquiries and orders.

Throughout this Guide, 5 will be supplied at the rate per 10, 25 at the 100 and 250 at the 1,000 rate, unless otherwise noted.

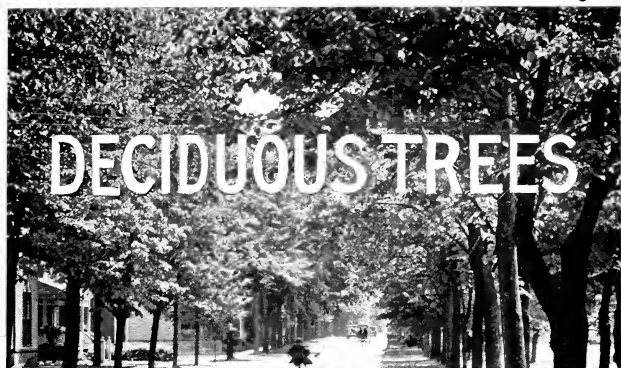

Prices net. Packing containers at cost.

DECIDUOUS TREES

IN spite of heavy demand and only fair supply generally of shade trees for street and park planting we have an exceptionally fine stock. Many sizes are not listed here and many varieties not mentioned. Quotations on special sizes and quantities on request.

ASH (*Fraxinus*)

GREEN ASH (*Fraxinus Viridissima*)—EHK—
40 to 50 feet. Open and spreading, almost entirely free from disease, does remarkably well in city conditions.

8 to 10 feet.	(10) 60.00	(100) 60.00
1½ to 2 inches caliper.	25.00

BIRCH (*Betula*)

EUROPEAN WHITE BIRCH (*B. Alba*)—EHK—
40 to 50 feet. A beautiful tree with white bark and spray-like branches.

6 to 8 feet.	20.00	175.00
8 to 10 feet.	25.00	200.00

CATALPA

CATALPA BUNGEII—DGIJ—15 feet. Straight stem with compact rounded head.

4 to 6 feet 2-year heads.	25.00	175.00
--------------------------------	-------	--------

CATALPA SPECIOSA (Western Catalpa)—EHK—
40 feet. Open growth and large leaves. A profusion of white blooms in July. A quick grower.

8 to 10 feet.	40.00
--------------------	-------	-------

DOGWOOD (*Cornus*)

WHITE FLOWERING DOGWOOD (*C. Florida*)—DIJ—20 feet. Covered with white blooms in May. Crimson leaves and berries in Autumn.

3 to 4 feet.	12.00	100.00
4 to 5 feet.	18.00	150.00
6 to 8 feet.	25.00

DOGWOOD IN FULL BLOOM

DECIDUOUS TREES

AMERICAN ELM—SPECIMEN

ELM (*Ulmus*)

AMERICAN ELM (*U.Americana*)—EHK—60 to 80 feet. Easily the finest native tree, for street or park.

	(10)	(100)
6 to 8 feet.....	65.00

WEeping WILLOW (*S.Babylonica*)—FHIJ—30 to 40 feet. Gray pendulous branches. Attractive near water.

6 to 8 feet.....	10.00	90.00
8 to 10 feet.....	19.00	150.00

SOME FINE LAWN SPECIMENS

EVERGREEN TREES

We offer a selected list of Evergreens of the types and varieties thoroughly proved to be hardy and satisfactory. We furnish many other varieties and should be glad to make quotations on anything not listed here, or on larger specimens.

ARBOR VITAE (Thuya)

AMERICAN ARBOR VITAE (T.Occidentalis)—
EHK—15 to 20 feet. Narrow pyramidal tree with
 dark green foliage.

AMERICAN
 ARBOR VITAE
 3 TO 4 FT.

	(10)	(100)
18 to 24 inches.....	15.00	140.00
2 to 3 feet.....	25.00	190.00
3 to 4 feet.....	30.00	275.00

COMPACT ARBOR VITAE (T.Compacta)—EHK—
 4 to 6 feet. A very compact form of Siberian.

12 to 18 inches.....	17.00	150.00
18 to 24 inches.....	24.00

ORIENTAL ARBOR VITAE (T.Orientalis)—EGIJ
 —4 to 5 feet. Dense and pyramidal with light green
 foliage, rich brown in winter.

18 to 24 inches.....	15.00	150.00
2 to 3 feet.....	20.00	190.00
3 to 4 feet.....	30.00	250.00

GOLDEN DWARF ARBOR VITAE—Golden dwarf
 form of above—Thuya Or. Aurea Nana.

12 to 18 inches.....	25.00
18 to 24 inches.....	38.00
2 to 3 feet.....	55.00

PYRAMIDAL ARBOR VITAE (T.Occ. Pyramidalis)
 —EHK—10 to 15 feet. Light green foliage. Very
 hardy and narrow in growth.

18 to 24 inches.....	22.00	170.00
2 to 2½ feet.....	30.00	250.00
2½ to 3 feet.....	40.00	385.00

SIBERIAN ARBOR VITAE (T.Warreana)—EHK—
 10 to 15 feet. Heavy blue-green foliage.

18 to 24 inches.....	24.00
2 to 3 feet.....	35.00

GOLDEN DWARF
 ARBOR VITAE

CEDARS (Cedrus)

DEODAR CEDAR (C.Deodarus)—EHJ—20 to 30 feet. Well known Indian evergreen. Regular in growth and makes a superb specimen for sheltered locations.

	(10)	(100)
18 to 24 inches.....	35.00
2 to 3 feet.....	45.00

GOLDEN PLUMED CYPRESS

CYPRESS (Retinispora)

PLUMED JAPANESE CYPRESS (R.Plumosa)—EIK—15 feet. Dense delicate foliage light green.

15 to 18 inches.....	20.00
18 to 24 inches.....	23.00	200.00
2 to 3 feet.....	26.00
3 to 4 feet.....	40.00

GOLDEN PLUMED CYPRESS (R.Pl. Aurea)—EIK—15 feet—Golden tipped branches.

12 to 18 inches.....	20.00	175.00
18 to 24 inches.....	30.00	250.00
2 to 3 feet.....	35.00	300.00

GOLDEN THREAD-BRANCHED CYPRESS (R.Filifera Aurea)—EK—10 to 15 feet. Stringlike, drooping foliage, good color.

12 to 18 inches.....	30.00	280.00
2 to 3 feet.....	65.00
3 to 4 feet.....	75.00

VEITCH'S SILVER CYPRESS (R.Squarrosa)—EIJ—10 to 15 feet. Pyramidal and dense with silvery feathery foliage—a beautiful tree.

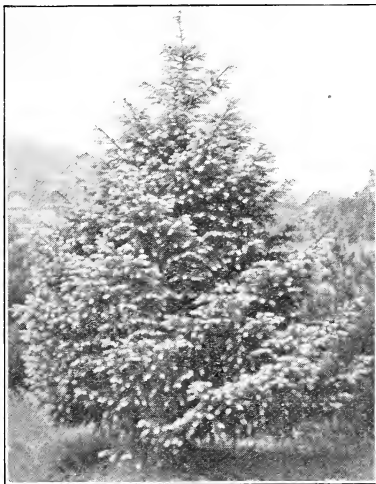

18 to 24 inches.....	25.00	225.00
2 to 3 feet.....	35.00	300.00
3 to 4 feet.....	50.00	450.00

FIRS (Abies)

BALSAM FIR (Abies Balsamea)—FHK—50 to 60 feet broad, regular and pyramidal. Sweet scented needles.

12 to 18 inches (specimen).....	13.00
---------------------------------	-------	-------

EVERGREENS

YOUNG DOUGLAS FIR SPECIMEN

DOUGLAS FIR (A.Douglassi)—EHK—40 to 50 feet—compact dense foliage of dark green.

	(10)	(100)
12 to 18 inches.....	20.00	175.00
2 to 3 feet.....	40.00
3 to 4 feet.....	50.00
4 to 5 feet.....	65.00

SILVER FIR (A.Concolor)—EHK—40 to 50 feet—foliage steel blue to silver—dense conical shape.

18 to 24 inches.....	48.00	450.00
2 to 3 feet.....	65.00	590.00

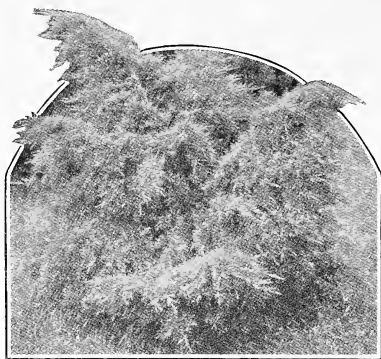

HEMLOCK (*Tsuga*)

CANADIAN HEMLOCK (T.Canadensis)—FHIJ—60 to 70 feet. Branches spreading and drooping. Stands shearing. Shade enduring.

12 to 18 inches.....	18.00
18 to 24 inches.....	24.00
2 to 3 feet.....	35.00	300.00
3 to 4 feet.....	59.00	500.00

AMERICAN HEMLOCK

PFITZER'S JUNIPER

JUNIPERS (*Juniperus*)

COMMON GOLDEN JUNIPER (*J. Communis aurea*)—EGK—3 to 4 feet. Dwarf spreading, fine golden color.

	(10)	(100)
12 to 18 inches.....	18.00
18 to 24 inches.....	30.00

GREEK JUNIPER (*J. Excelsa stricta*)—EGK—6 to 10 feet. A fine, dense, narrow column of pleasing color and texture.

10 to 12 inches.....	16.00
12 to 15 inches.....	24.00	200.00
15 to 18 inches.....	30.00	275.00

IRISH JUNIPER (*J. Hibernica*)—EHJ—8 to 10 feet. A dense narrow column with light green foliage.

15 to 18 in.	9.00
18 to 24 in.	13.00
2 to 3 ft.	20.00	190.00

PFITZER'S JUNIPER

(*J. Pfitzeriana*)—EGK—4 to 5 ft. Vase shaped spreading foliage, soft green. Thrives under city conditions.

12 to 18 in.	20.00
18 to 24 in.	25.00

RED CEDAR (*Juniperus Virginiana*)—EHK—20 to 30 ft. Branches upright. Conical in growth. Foliage dark green.

18 to 24 in.	17.50	150.00
2 to 3 ft.	25.00	230.00
3 to 4 ft.	35.00	300.00
4 to 5 ft.	40.00
5 to 6 ft.	50.00

TRIPARTITE JUNIPER

(*J. Tripartiti*)—EHK—3 to 4 ft. A dwarf of irregular habit. Very dense. Blue-gray in color. Very robust.

18 to 24 in.	35.00
2 to 3 ft.	45.00
3 to 3½ ft.	65.00

RED CEDAR SPECIMEN

EVERGREENS

AUSTRIAN PINE—A FINE LAWN TREE

PINES (*Pinus*)

AUSTRIAN PINE (*Pinus Austriaca*)—EHK—40 to 50 feet. The bushiest of the pines and fine for lawn specimen. Thrives near seashore.

	(10)	(100)
12 to 18 inches.....	15.00
2 to 3 feet.....	30.00
4 to 5 feet.....	75.00
5 to 6 feet.....	90.00

MUGHO PINE (*Pinus Mughus*)—EGK—6 to 8 feet. Dense, low, spreading growth, foliage bright green—two inch needles.

	each	(10)
12 to 15 inches.....	3.50	32.50
15 to 18 inches.....	4.00	35.00

RED PINE (*P. Resinosa*)—EHK—50 to 60 feet. Red bark, spreading branches. Very hardy and free from disease.

	(10)	(100)
2 to 3 feet.....	18.00
3 to 4 feet.....	28.00
4 to 5 feet.....	35.00

We are making a special offer of Red Pine on page sixteen of fine, healthy transplants 10 to 18 inches in height, at very special prices and in quantities of a hundred thousand or more.

SPRUCES (*Picea*)

COLORADO SPRUCE (*P. Pungens*)—Selected Blues—EGK—60 to 70 feet. Branches horizontal and dense—foliage light blue.

	(10)
18 to 24 inches.....	40.00
2 to 3 feet.....	60.00

EVERGREENS

KOSTER SPRUCE AND RHODODENDRONS

KOSTER'S BLUE SPRUCE (P.Kosterii)—EGK—40 to 50 feet. A grafted form of the above with better color. We offer carlots of 40 to 50 trees 8 to 10 feet high with ball at \$29.00 each. Fine specimens, good color and shape.

NORWAY SPRUCE (P.Excelsa)—EHK—50 to 70 feet. Foliage dark shiny green, very hardy, spreading.		
	(10)	(100)
12 to 18 inches.....	9.00	75.00
18 to 24 inches.....	12.00	90.00

	(10)	(100)
12 to 18 inches.....	12.00
18 to 24 inches.....	15.00	140.00
2 to 3 feet.....	30.00

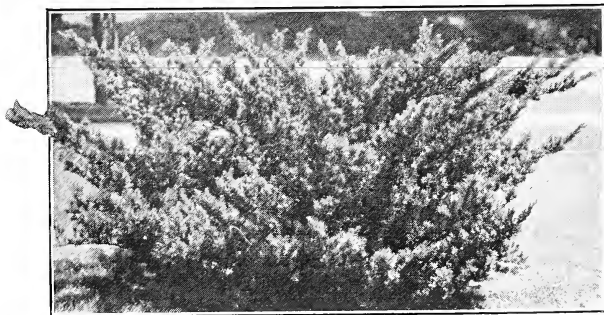

YEWS (Taxus)—Endure Shade.

DWARF JAPANESE YEW (T.Cuspidata Brevifolia)—EGK—3 to 4 feet—black green foliage very dense. Absolutely hardy dwarf. (10)

12 to 18 inches.....	35.00
18 to 24 inches.....	55.00

JAPANESE YEW (T.Cuspidata)—EGK—10 to 15 feet or more, but very slow growing. Close, spreading and compact. Scarlet fruit.

12 to 18 inches.....	30.00
18 to 24 inches.....	40.00
2 to 3 feet.....	59.00

DWARF JAPANESE YEW

AZALEAS

HARDY AZALEAS

Including both evergreen and deciduous varieties. This species is representative of some of the finest color of bloom and delicacy of foliage. They do best in woods earth and partial shade with ample moisture. The following are deciduous native varieties, ultimate height about 6 feet. In carlots we can offer very special prices.

AZALEA MOLLIS

AZALEA ARBORESCENS —Large white bloom in July, fragrant.		
12 to 18 inches (transpl.).....	(10) 10.00	(100) 90.00
18 to 24 inches (transpl. clumps).....	35.00	275.00
A. CALENDULACEA —Flame colored in June.		
1 to 2 feet (native).....	9.00	75.00
2 to 3 feet (clumps).....	15.00	125.00
A. CANESCENS (Rosea) —Similar to Vaseyi.		
1 to 2 feet (native).....	4.00	30.00
2 to 3 feet (clumps).....	8.00	60.00
A. NUDIFLORA (Pinkster) —Deep pink in May.		
1 to 2 feet (native).....	2.00	15.00
1½ to 2½ feet (clumps).....	5.00	40.00
A. VASEYI (Pinkshell) —Flowers profusely before the leaves appear, exquisite pink or rose.		
12 to 18 inches (transpl.).....	15.00	140.00
A. VISCOSA (Swamp Azalea) —Early fragrant white.		
2 to 3 feet (native).....	4.00	30.00
3 to 4 feet (clumps).....	11.00	100.00
AZALEA MOLLIS (Lovely Azalea) —FGK—May. Ranges from light pink to rich yellow and red.		
12 to 15 inches.....	45.00

HARDY EVERGREEN AZALEA HINODIGIRI

AZALEA HINODIGIRI (Japanese Evergreen Azalea)—FK—2 to 3 feet. Brilliant crimson bloom completely covers bush in May—foliage rich bronze in winter. A superb variety.

4 to 6 inches.....	8.00	60.00
6 to 8 inches.....	14.00	85.00
8 to 10 inches.....	18.00	160.00
10 to 12 inches.....	27.50

EVERGREEN SHRUBS

ANDROMEDA (A.Floribunda) (Lily-of-the-Valley Shrub)—EHK—3 to 4 feet. White flowers in May and June. A valuable evergreen.

	(10)	(100)
15 to 18 inches.....	22.50

ABELIA (A.Grandiflora) (Arbutus Bush)—AEHK—5 feet. White bell-shaped blooms in profusion over a period of about eleven weeks—June to September. Leaves rich bronze in winter.

12 to 18 inches.....	5.00	40.00
18 to 24 inches.....	6.00	50.00
2 to 3 feet.....	8.00	75.00

BOXWOOD (Buxus Sempervirens)—FGI—5 to 10 feet for specimens or hedges.

12 inches.....	15.00
15 inches.....	20.00
2 feet.....	40.00
3 feet.....	75.00

(Specimens from 4 to 10 feet quoted on request—special prices in carlots.)

SPECIMEN BOXWOOD

BOX EDGING (Buxus Suffruticosa)—EGI—4 to 8 feet.

6 to 8 inches.....	40.00
8 to 10 inches.....	60.00

COTONEASTER (C.Horizontalis)—IEG—3 feet. Blooms white in July—bright red fruit in Autumn—fine for rockeries—of spreading habit. Red winter foliage.

12 to 18 inches (Balled).....	16.50
18 to 24 inches (Balled).....	19.00

DAPHNE CNEORUM (Garland Flower)—AEK—12 to 15 inches. One of the finest dwarf evergreen shrubs, covered with pink blooms in May which continue sparsely through the summer and a profusion of bloom again in September. Very fragrant. Forms a dense bush two feet or more across.

6 to 8 inches.....	8.00	75.00

EVERGREEN THORN (Pyracantha Coccinea)—EGI—White flowers in May—orange berries in winter.

18 to 24 inches.....	9.00	80.00
2 to 3 feet.....	15.00	125.00

EVERGREEN SHRUBS

DAPHNE CNEORUM—THE GARLAND FLOWER

HOLLY (Ilex)

AMERICAN HOLLY (I. Opaca)—FGK—8 to 15 feet. Yellow flowers in June and scarlet berries in winter.

	(10)	(100)
18 inches	16.00	150.00
24 inches	20.00	190.00
4 to 5 feet	80.00	700.00

ENGLISH HOLLY (I. Aquifolium)—EGI—8 to 12 feet. Glossy green leaves—scarlet berries in winter.

18 to 24 inches	30.00
2 to 3 feet	40.00

INKBERRY (I. Glabra)—EGK—5 feet. Yellow bloom in June and showy black berries in winter.

18 to 24 inches	30.00	250.00
---------------------------	-------	--------

LEUCOTHOE CATESBAEI (Drooping Leucothoe)—EHK—3 to 4 feet. Gracefully arching branches covered with white flowers in May.

12 to 18 inches	8.00	75.00
12 to 18 inches (heavy clumps)	12.50	110.00

MAYFLOWER or TRAILING ARBUTUS (Epigea Repens)—FGK—4 to 6 inches. Pink in April and May. Very rare native variety. Highly fragrant flowers.

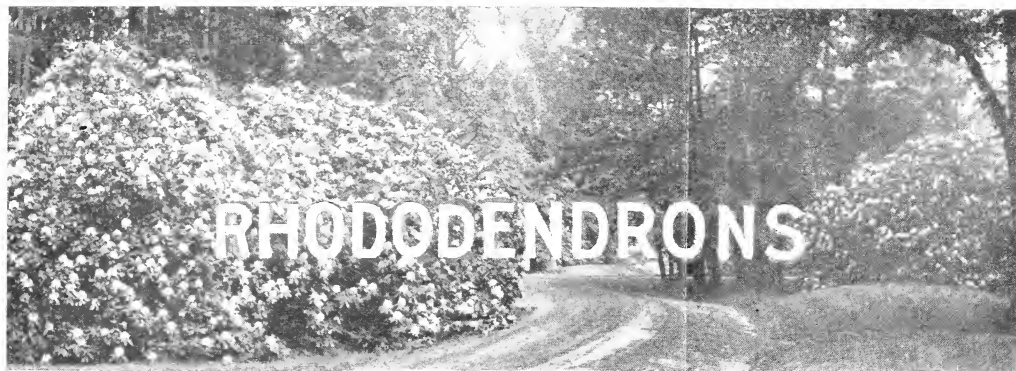

Collected clumps balled and burlapped	4.00	30.00
---	------	-------

VIBURNUM LEATHERLEAF (V. Rhytodophyllum)—EHK—4 to 5 feet. White blooms in clusters in early spring. Curious wrinkled leaves, bright green all winter.

12 inches	20.00
18 inches	30.00
2 feet	40.00

YUCCA FILAMENTOSA (Adams Needle)—EHK—3 feet. Large white flowers on long stalks in June and July. Of tropical appearance.

2-year plants	2.00	10.00
3-year plants	4.00	35.00
4-year plants	5.00	40.00

THE glory of summer owes no small part to the Rhododendron. In the above grouping we picture old established specimens—at the bottom of the page young plants two years planted. In the front are fine Hardy Hybrid varieties. The background, however, of a successful Rhododendron grouping usually consists of native varieties, and most of all RHODODENDRON MAXIMUM. In carlots we offer fine plants, for immediate effect as follows:

SPECIAL CARLOT OFFER of the Native Rhododendron Maximum. We offer Kalmia Latifolia at the same prices or in mixed cars.

2 to 3 ft—175 to 200 in car 135.00 per car

3 to 4 ft—150 to 175 in car 140.00 per car

Also a special grade of clumps that have been cut back and have grown up from the ground especially bushy and strong: 1½ to 2½ ft—150 in car 150.00 per car

RHODODENDRONS

(Shade—acid soil)

RHODODENDRON CAROLINA—FK—8 to 10 feet. Fine native with light to deep pink bloom in June.

	(10)	(100)
1½ to 2 feet.....	20.00	175.00
2 to 3 feet.....	30.00	245.00

RHODODENDRON CATAWBIENSE

—FK—6 to 8 feet. More compact than the above—rosy purple bloom in June.

18 to 24 inches.....	16.00	150.00
2 to 3 feet.....	30.00	250.00

RHODODENDRON MAXIMUM

—FK—8 to 10 feet. Rose bloom in June and July. (See special offer above.)

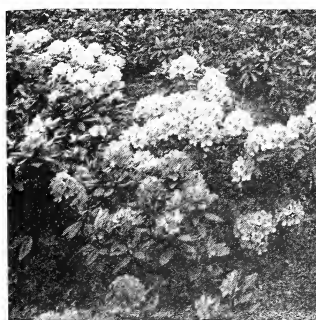

2 to 3 feet, clumps....	12.50	90.00
3 to 4 feet, clumps....	20.00	145.00

HARDY HYBRID RHODODENDRONS—FK—We offer the following fine varieties:

15 to 18 in.	6.00 each
	50.00 ten
	450.00 hundred

ALBUM ELEGANS—Large flowered white.

CATAWBIENSE GRANDIFLORUM—Lavender.

MOUNTAIN LAUREL (Kalmia Latifolia)—FK—5 to 8 feet. Shapely bush covered with white to pink bloom in June—attractive buds in May.

18 to 30 inches.....	12.50	90.00
----------------------	-------	-------

(Sizes and prices in carlot same as Rhododendron Maximum—or in mixed cars, some of both.)

Hardy Hybrid Rhododendrons are ideal for blooming effects. In spite of the severe shortage in these fine varieties since the European quarantine of 1920, we offer some of the best varieties at reasonable prices, elsewhere on this page.

PRESIDENT LINCOLN—Free flowering, beautiful crimson Rose.

Above plants are well shaped and well set with buds

SEEDLING HYBRID RHODODENDRONS—In all colors and types, well grown plants three times transplanted and budded.

12 to 15 inches....	15.00 ten
	125.00 hundred

One of our specialties for many years, indeed since the business was established here in 1878, has been the furnishing of the native Rhododendron Maximum (Great Rosebay) in carlots at prices, considering quality, far below other responsible nursery concerns. Our plants are Pennsylvania grown—far enough north to be perfectly hardy and far enough south to be well furnished with luxuriant foliage and good roots.

We have the most approved methods of digging with ball and packing for safe transportation. In 2 to 3 foot plants, 175 to 200 fill an ordinary car. By double decking, twice this number can be safely packed without extra charge. By the cording method of packing, a carload of 400 to 600 can be safely loaded for shipping.

Some of the finest estates in the east have been furnished with Rhododendrons exclusively by this Company and we have been repeatedly commended on the quality of our stock.

DRIVEWAY OF OUR HARDY HYBRID RHODODENDRONS TWO YEARS AFTER PLANTING

SPECIALS IN EVERGREENS

FOR SCREENS, MASS PLANTING OR HEDGES the sizes and grades listed below are of exceptional value. Many planting locations do not require specimen stock, and often small and much less expensive evergreens are preferred.

PINES (Pinus)—All fine shapely well rooted stock, a great bargain. We have a very large fine stock of the following two varieties by the hundred thousand, and just right for forestry planting.

NORWAY RED PINE (Resinosa)		
10 to 18 inches once transplanted	(100) 15.00	(1000) 110.00
Special prices per 10,000 and per 100,000		

SCOTCH PINE (Sylvestris)		
14 to 24 inches once transplanted	9.00	70.00
Special prices per 10,000 and 100,000		

FORESTRY PLANTING OF NORWAY SPRUCE

Also a fine stock of the following varieties. Not less than 50 of these can be shipped at these prices.

FIRS (Abies)		
BALSAM (Balsamea)		
10 to 12 inches twice transplanted	(100) 70.00	(1000) 650.00

LARCH (Larix)		
EUROPEAN (Europea)		
18 to 24 inches twice transplanted	40.00	375.00

ARBOR VITAE (Thuja)		
AMERICAN (Occidentalis)		
12 to 15 inches twice transplanted	60.00	580.00
15 to 18 inches twice transplanted	90.00	850.00

ALSO FROM OUR WESTERN GROWN STOCK we can still offer some desirable items. We are shipping carloads through to the east from the nursery—not far from Chicago—and might include your order in a car-load shipment. In this way the transportation cost would be nominal—as low as \$10.00 per 100 trees. We have the following to offer:

NORWAY SPRUCE (Picea excelsa)		
19,000 2 to 3 feet	(100) 45.00	
9,450 3 to 4 feet	55.00	
850 4 to 5 feet	75.00	

This stock is many times transplanted and well rooted, but not shapely enough to be included in our first-class grade of landscape stock. It is, however, bushy and healthy and ideal for screens or mass planting.

ARBOR VITAE HEDGE

BARBERRY—Thunberg's barberry is perhaps the most popular low hedge in use today. Gracefully arching branches and pretty light green leaves, together with a profusion of bright red berries in Autumn. 12 to 15 inch bushy transplants. 10.00 per 100
75.00 per 1,000

CALIFORNIA PRIVET (*Ligustrum Ovalifolium*)—A perfectly hardy rapid growing hedge plant, shears readily and holds its leaves late into the fall. Good for hedges up to ten feet and will shear as low as two or three feet. Easy of cultivation. (100) (1000)
12 to 18 inches. 8.00 50.00
18 to 24 inches. 10.00 70.00
2 to 3 feet. 15.00 100.00

LOMBARDY POPLARS (*Populus Fastigiata*) planted three to four feet apart in line form an excellent wind-break and screen and their extraordinary growth each year makes it possible to achieve quick results. Prices on page 4.

SPRUCE AND PINE planted alternately are most effective for a permanent living wall to shut out undesirable views, etc. See pages 9 and 10 and write for very special prices in quantity. See also the opposite page.

ARBOR VITAE (*Thuya*) is the evergreen screen par excellence where the line must be narrow. Planted two to three feet apart, according to size used, this variety will shear well and grow dense and smooth. See photograph at the top of this page, and description on page 5. Quantity prices on request.

POPLAR AND PRIVET

BOXWOOD (*Buxus*) is the aristocrat among hedges. It can be clipped into formal designs, or left to form a soft billowy outline. We can offer fine, well transplanted bushes in thousand lots at attractive prices, and in sizes all the way from 12 inch up to 8 and 10 foot specimens by the carload. Write us your requirements and get Kelsey Nursery Service prices before ordering elsewhere. There is no better stock grown in the country. See page 12 for description, photograph etc.

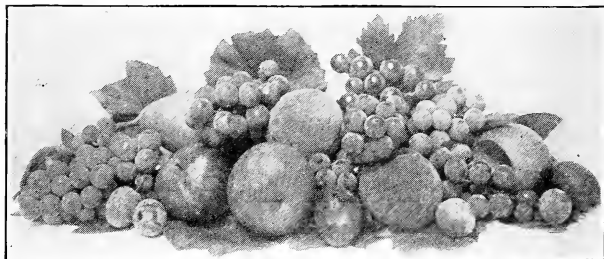

DWARF BOX EDGING (*Buxus suffruticosa*) is ideal for formal gardens. It shears easily and grows dense and even in very dwarf edging. See page twelve for prices. Large quantities furnished at special rates. Our stock is second to none in quality.

NUTS, BERRIES and FRUITS

We carry a complete stock of all varieties commonly planted and all at standard prices. Fruit trees are graded according to diameter of trunk and not by height, as we believe this the surer way of determining growth. Ten or more at the hundred rate.

APPLES (2 and 3 year) (Including Crab Apples)	(100)
$\frac{1}{8}$ inches caliper and up.....	60.00
$\frac{5}{8}$ to $\frac{1}{8}$ inches.....	40.00

GRAPES	
2 year Number 1.....	30.00

(SPECIAL PRICES IN QUANTITY)

BERRIES—We can furnish fine stock in Raspberries, Strawberries, Blackberries, etc., at prices considerably below most other responsible nursery establishments.

NUTS—With the growing demand for Nut Trees, we list a few varieties from our complete stock of varieties and sizes as follows:

CHESTNUT	(10)	(100)
American Sweet, 3 to 4 feet.....	12.00	
Spanish 4 to 6 feet.....	19.00	
WALNUT		
English, 2 to 3 feet (grafts).....	12.00	95.00
3 to 4 feet.....	14.00	115.00
Japanese, 3 to 4 feet.....	10.00	75.00
4 to 6 feet.....	12.00	95.00

GRAPE VINES FOR GRAPERIES—On early orders we can still furnish a limited number of large and fine Fruiting Vines for graperies, of Black Hamburg, Foster's Seedling and Muscat of Alexandria and other fine varieties. These vines are well established in 7 to 8 inch pots, and in exceptionally good condition for early fruiting. Prices \$4.00 to \$5.00 each.

DECIDUOUS FLOWERING SHRUBS

NATURAL EFFECTS WITH KELSEY SHRUBS

ALTHEA or ROSE OF SHARON (*Hibiscus Syriacus*)—EIJ—8 to 10 feet. Blooms range through reds, blues and whites in August and September.

2 to 3 feet.....	(100) 40.00
3 to 4 feet.....	60.00

ARALIA PENTAPHYLLA (*Five-leaved Aralia*)—EHK—7 feet. Yellow bloom in June. A fine shrub.

18 to 24 inches.....	32.00
2 to 3 feet.....	40.00
3 to 4 feet.....	55.00

ARALIA SPINOSA (*Hercules Club*)—EI—15 to 20 feet. Green-white blooms in July. Leaves 3 to 4 feet long. Excellent for tropical effects.

4 to 6 feet.....	(10) 6.00
6 to 8 feet.....	8.00

AMORPHA FRUTICOSA (*Bastard Indigo*)—EHK—8 to 10 feet. Very ornamental with large spikes of violet-purple flowers in narrow drooping clusters.

3 to 4 feet.....	(100) 24.00
------------------	----------------

BUTTERFLY BUSH (*Buddleia Magnifica*)—DHJ—5 feet. Violet-purple flowers with yellow spot in the throat produced in dense panicles from July to frost. Attractive to insects.

18 to 24 inches.....	30.00
2 to 3 feet.....	40.00

CALYCANTHUS FLORIDUS (*Sweet shrub*) (Allspice)—EHK—5 feet. Fragrant chocolate-brown flowers about three inches across produced all summer.

18 to 24 inches.....	60.00
2 to 3 feet.....	75.00

'DEUTZIA' LEMOINE

The list of Deciduous Flowering Shrubs is continued in tabular form on the next two pages. Prices given are all per hundred. Less than 25 are at a ten rate of 25 per cent additional. The letters following names, as:—

Allspice—EHK" just above, refer to the table on the last page of the Guide.

ROSES

A fine Rose Garden in full bloom

We offer a complete list of rare and standard varieties of Roses. Forty Hybrid Teas and 22 Hybrid Perpetuals form our selected list (available on request) besides which we can furnish many varieties unobtainable elsewhere at low prices. Write us for special quotation in quantity and on special named varieties. All roses quoted here are field grown.

HYBRID TEA ROSES		(10)	(100)
2 year—Number 1		9.00	75.00

HYBRID PERPETUAL ROSES			
2 year—Number 1		8.00	70.00

CLIMBING ROSES			
2 year—Number 1		6.00	45.00

Including the following varieties:

American Pillar: Single pink blossoms.

Christine Wright: Bright pink flowers 3 inches across.

Climbing American Beauty: Fragrant.

Crimson Rambler: Large clusters, crimson bloom.

Dorothy Perkins: Soft shell-pink.

Excelsa: Intense crimson-maroon.

Hiawatha: Single, crimson.

Paul's Scarlet Climber—Vivid scarlet, semi-double flowers which do not fade in the sun—profuse bloomer. Very hardy.

2 year—Number 1	7.00	60.00
---------------------------	------	-------

Silver Moon—Clear silvery-white. Foliage does not mildew. Fragrant.

2 year—Number 1	7.00	60.00
---------------------------	------	-------

Dr. Van Fleet—A fine variety. Large double flowers of flesh pink. Fragrant.

2 year—Number 1	7.00	60.00
---------------------------	------	-------

Mary Wallace—New Van Fleet climber. Semi-double clear rose-pink with salmon base to petals.

2 year—Number 1	12.50	100.00
---------------------------	-------	--------

EVERGREEN

ENGLISH IVY (Hedera Helix)—FGK—10 to 30 feet. Fine Evergreen climber.

	(10)	(100)
2 year—Number 1	5.00	25.00

EVERGREEN BITTERSWEET (Euonymus Radicans)—EGK—10 to 15 feet. Thrives in shade—small dark green leaves. Thoroughly hardy. Needs no supports.

2 year—Number 1	5.50	24.00
---------------------------	------	-------

EUONYMUS VEGETUS—Large-leaved variety of above. Scarlet fruit in Autumn. Fine ground cover.

2 year—Number 1	6.00	50.00
---------------------------	------	-------

JAPANESE SPURGE (Pachysandra Terminalis)—FGK—6 to 12 feet spread on the ground. Very valuable cover in dense shade. Dense glossy foliage.

2 year—Number 1	3.00	20.00
---------------------------	------	-------

(Special prices in quantity)

MYRTLE (Vinca Minor)—EK—6 to 8 inches. Small glossy green leaves. Fine cover in sun or partial shade. Pretty blue flowers in May and July.

2 year—Number 1	2.40	20.00
---------------------------	------	-------

(95.00 per Thousand)

OCONEE BELLS (Shortia Galicifolia)—FK—6 to 9 inches. A beautiful, rare Evergreen with galax-shaped leaves and white bell-shaped flowers in earliest spring. Fine ground cover.

2 year seedlings (130.00 per thousand)	2.00	16.00
--	------	-------

Specially collected clumps	3.50	35.00
--------------------------------------	------	-------

DECIDUOUS VINES

BOSTON IVY (Amelopsis Veitchii or Tricuspidata)—EHI—30 to 40 feet. Clings firmly to any hard surface.

2 year—Number 1	8.00	72.00
---------------------------	------	-------

3 year—Number 1	10.00	85.00
---------------------------	-------	-------

CLEMATIS PANICULATA—EHIK—20 feet. A mass of star shaped white flowers in September.

2 year—Number 1	5.00	30.00
---------------------------	------	-------

HONEYSUCKLE (Lonicera Halleana)—AEHK—10 to 15 feet. White, fragrant flowers in August and September. Foliage almost evergreen.

2 year—Number 1	5.00	30.00
---------------------------	------	-------

WISTERIA (W.Sinensis)—EHK—20 to 30 feet. Purple flowers in long clusters in May.

(10)	(100)
------	-------

2 year—Number 1	6.00	50.00
-----------------	------	-------

3 year—Number 1	11.00	90.00
-----------------	-------	-------

WHITE WISTERIA—Variety of above with white flowers.

2 year—Number 1	7.00	60.00
-----------------	------	-------

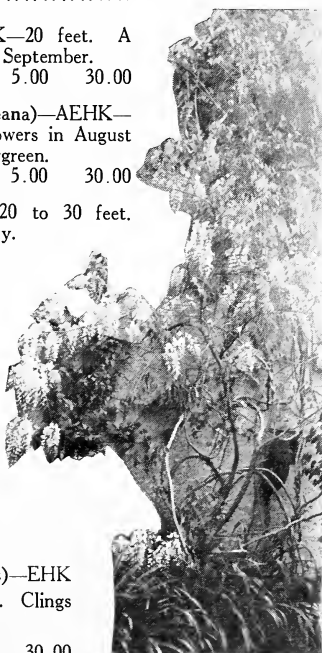

3 year—Number 1	9.00	80.00
-----------------	------	-------

The Wisteria, pictured at the right, gives perhaps the most colorful effect of all climbing vines.

TRUMPET VINE (Bignonia radicans)—EHK

—Orange scarlet bloom in July. Clings to rough surfaces.

2 year—Number 1	3.50	30.00
---------------------------	------	-------

WISTERIA

HARDY PERENNIALS

We carry a complete list of varieties, from Achillea to Wall-flowers and should be glad to quote on your list of requirements. The varieties listed below are a few of the newer and popular perennials.

CHRYSANTHEMUMS—Hardy perennials in a long range of colors blooming in October and November. Varieties listed here at \$2.00 per dozen and \$12.00 per hundred.

SINGLE LARGE-FLOWERING VARIETIES

Astarte—Bright, brassy amber.
Jupiter—Rose shading to pink. Orange center.
Little Barbe—Clear canary yellow.
Ruby King—Ruby-red. Extra fine; gray foliage.

DOUBLE LARGE-FLOWERING VARIETIES

Adelaide—Splendid deep, rich mahogany. Early.
Brune Poitevine—Rich crimson, overlaid gold.
Lilian Doty—Finest pink. Pompon, vigorous grower.
Red Doty—Wine-red with a silvery reverse on underside of petals and showing up distinctly in the short crisp center petals.
White Doty—Pure white. Very vigorous.

SMALL BUTTON VARIETIES

Brown Betty—Dark maroon-red.
Diana—Pure white.
Klondike—Brilliant yellow.

PHLOX Suffruticosa—Early flowering Phlox. \$3.00 per dozen and \$20.00 per hundred. Bloom from June to August.

Mrs. Lingard—Pearly white; profuse bloomer.

PHLOX Subulata—Dwarf moss pinks. \$3.00 per dozen, \$20.00 per hundred. Bloom in April and May.

Alba—White.
Rosea—Bright rose.
Lilacina—Light lilac.

PHLOX Paniculata—Blooming from July to October. \$3.00 per dozen, \$20.00 per hundred.

Amazon—Pure white.
Daybreak—New. Pale pink.
Fernando Cortez—Deep crimson.
Mme. Paul Dutrie—New. Lilac-rose.
Mrs. E. E. Jenkins—Pure white; enormous trusses.

SEDUM (Stonecrop)—Fine dwarf succulents. Perfectly hardy. Form a low-growing ground covering for edging gardens or in rockwork. \$3.00 per dozen, \$20.00 per hundred.

Acre—Bright yellow in May. Very dwarf. Evergreen.
Album—Pure white in July and August. Evergreen.
Kamchaticum—Orange yellow in July and August. Evergreen.
Spectabile—Deep rose in August and September. Very showy.

POOL WITH IRIS PLANTING

IRIS (Flag)

German Iris (Named varieties in all colors) Blooming from May to July. \$2.00 per dozen and \$14.00 per 100.

Japanese Iris (Named varieties) Blooming in June and July at \$5.00 per doz. and \$40.00 per 100—some fine types. All colors mixed at \$2.50 per dozen and \$19.00 per 100.

Iris Pumila—Dwarf growers blooming in May. White, blue and yellow, order by color. \$2.50 per dozen and \$19.00 per 100.

The surprising prodigality heretofore prevailing in forest destruction all over the country is at last arousing public opinion. This accounts for the rapidly growing and widespread interest now being taken toward the restoration as far as possible of much that has been irretrievably lost, due to the suicidal policy and wanton waste of our forests and the consequent depletion of the national timber supply.

Supplying all young stock in quantity for reforestation and for nursery planting on the most favorable terms is one of the important and well-known features of the KELSEY NURSERY SERVICE. That these facilities are more and more appreciated by past and prospective patrons is shown in our constantly increasing business.

It is, therefore, advantageous, especially where material quantities are required, to get in touch with us before making purchases.

PLANTING COSTS

The economic side of the planting of young trees is, perhaps, not generally understood. A yearly income of 15 to 20 per cent on an investment in reforestation is well within the bounds of possibility if ordinary care and intelligence are exercised. This investment would, of course, be a long-term one of 20 to 50 years.

The cost of planting is made up by reckoning the value of the land, the yearly taxes, the cost of labor in planting and the cost of the trees themselves. All these factors are variable, except that the actual labor of planting should average about \$12.00 per acre. The number of trees per acre in a 6 x 6 foot planting is 1,200, and in an average planting of Pine and Spruce these would cost for three year transplants \$25 to \$35 per acre. Seedlings would, of course, be much cheaper and more economical, but require too much care on the average private estate where reforestation is purely a minor item and taken up as much for pleasure as for profit.

A typical cost budget per acre might be as follows:

Cost of land	\$10.00 (variable)
Taxes at .50 per year for 40 years	20.00 (variable)
Cost of trees	30.00
Planting	12.00
Total	<u>72.00</u>

PROFIT FROM TREES

As against this cost the timber at the end of thirty years—in Spruces, Pines or Firs, should yield about 15,000 board feet at from \$6 per thousand for Pine up to \$12 per thousand for Spruce and Fir, or \$90.00 to \$180.00 total income per acre. If cut for pulp-wood instead of lumber, the yield should be 30 to 45 cords per acre—at about \$4.00 per cord, or \$120.00 to \$180.00 per acre.

NORWAY SPRUCE

At 40 years of age the board feet would range from 30 to 40 thousand feet per acre and the cords of pulp-wood also approximately double the figure for 30 years. For this reason 40 years is a much more economical period to crop the timberland.

The planting of White and Norway Spruce and Douglas and Balsam Fir for Christmas tree cutting is another phase of commercialized forestry which is profitable. This crop usually matures in about 12 years and when cut, leaves the timberlot properly spaced for forest growing. One tree is planted between each permanent tree and requires no extra land; indeed it is an assistance to the young evergreen for the first ten years to have the shade and shelter of a dense planting, which must, however, be cleared away in time, whether for Christmas tree use or not, in order to maintain a six by six foot space for permanent growth.

BEST EVERGREEN VARIETIES

A few words about the commoner varieties might not be amiss. In the price list of Seedlings and Transplants in the back of this Guide will be found many varieties of Evergreens, Trees and Shrubs classified alphabetically according to botanical name, together with sizes and prices available for sale.

NORWAY SPRUCE (*Picea excelsa*)—This variety is planted in preference to other spruces for two reasons: It will thrive when set out in dense shade and succeeds in heavy damp soil. Having a flat root system, it is suitable for shallow, rocky soils.

WHITE SPRUCE (*Picea alba*) is most suitable for paper pulp and succeeds wherever Norway Spruce succeeds. It is a trifle quicker in growth.

DOUGLAS FIR (*Pseudotsuga taxifolia*) although more beautiful probably than the average forestry tree is very valuable for timber. Fairly quick growing, it is a highly desirable variety and thoroughly hardy.

A FEW YEARS AFTER PLANTING WITH KELSEY TRANSPLANTS

FORESTRY STOCK IN NURSERY BEDS

EUROPEAN LARCH (*Larix Europea*) entirely different from our American species, this variety makes an excellent growth and the wood is very strong and durable. It requires a deep, fairly porous and moderately fresh soil. It is a rapid grower but needs sunlight. Best used in combination with other varieties.

SCOTCH PINE (*Pinus Sylvestris*) is the variety par excellence for poor soils—even dry sand wastes can be successfully covered with a thrifty stand of Scotch Pine. It is also the quickest growing pine in common use and this even on the most sterile soil.

WHITE PINE (*Pinus strobus*) is probably the most valuable timber tree, but must have a fairly good soil for best results.

RED PINE (*Pinus resinosa*) is perhaps the most popular pine for forestry planting in the east. It has practically no insect enemies and is successful on a wide range of soil—from coarse gravel to heavy clay.

BEST VARIETIES FOR SPECIAL SOILS

LIGHT SAND

Scotch Pine (*Pinus*)
Black Locust (*Robinia*)
Carolina Poplar (*Populus*)

SANDY LOAM

Red Pine (*Pinus*)
Black Locust (*Robinia*)
Carolina Poplar (*Populus*)
European Larch (*Larix*)
Arbor Vitae (*Thuja Occ.*)
Douglas Fir (*Pseudotsuga*)

GOOD SOIL

White Pine (*Pinus*)
Norway Spruce (*Picea*)
White Ash (*Fraxinus*)
European Larch (*Larix*)

COARSE GRAVEL

Red Pine (*Pinus*)
Black Locust (*Robinia*)

LOAM

White Pine (*Pinus*)
Norway Spruce (*Picea*)
White Ash (*Fraxinus*)
Carolina Poplar (*Populus*)
European Larch (*Larix*)
Arbor Vitae (*Thuja*)

WET LAND

Balsam Fir (*Abies*)
Arbor Vitae (*Thuja Occidentalis*)
Carolina Poplar (*Populus*)

(See list on inside back cover)

KEY TO NOTES

The information and cultural notes in this Guide have been carefully prepared and are trustworthy. The letters following the name of each variety throughout this Price List refer to the table published herewith. The figures following each name indicate ultimate height at maturity.

- A—Profuse bloomer.
- B—Flowers very large.
- C—Good for cut flowers.
- D—Likes a light warm soil.
- E—Any good soil.
- F—Likes moist ground.
- G—Slow growing.
- H—Rapid growing.
- I—Requires protection first year.
- J—Requires sheltered position.
- K—Very hardy.

INDEPENDENT has spread

The Independent has spread its wings and is now flying high over the horizon of the American press. It has been a long and arduous journey, but it has finally reached the shores of the public eye. The paper's commitment to truth and justice has been its guiding light, and it has not wavered in the face of adversity. Its readers have grown in number, and its influence has become undeniable. The Independent is now a force to be reckoned with, and it is here to stay.

The Independent's success is a testament to the power of the press. It has shown that a single voice can make a difference, and that the truth can triumph over the lies. The paper's dedication to its principles has been its strength, and it has inspired others to follow in its footsteps. The Independent is a beacon of hope, and it is a reminder that the press is still a vital part of our society.

The Independent's journey has not been without challenges. It has faced criticism and opposition, but it has always stood firm. It has never been afraid to speak the truth, even when it is unpopular. The Independent's courage and integrity have earned it the respect and admiration of its readers. It is a paper that has truly made a difference, and it is a source of pride for all who believe in the power of the press.

The Independent is now a household name, and its influence is felt across the country. It has become a trusted source of news and information, and its readers look to it for guidance. The Independent's success is a testament to the power of the press, and it is a reminder that the truth is always on the side of the underdog. The Independent is a paper that has truly made a difference, and it is a source of pride for all who believe in the power of the press.
